

KÉVIN SAUVAGE

Front-end developer

📍 Barcelona, SPAIN

☎ +34 633 674 641

@kevinsauvage@outlook.com

SUMMARY

Front-end developer proficient in JavaScript, React, Next, and Svelte. Fluent in Spanish, French, and English. Led impactful projects for Decathlon and Subforce, driving innovation and delivering meaningful web solutions. Seeking opportunities to apply my expertise and drive impactful solutions while furthering professional growth and learning.

EXPERIENCE

October 2023 - Present

Front-end Developer at [Decathlon.fr](#)

Barcelona, Spain (Remote)

- Promoted to lead the development of a new checkout system for 15 countries, utilising a new npm package.
- Conducted AB tests in each country, resulting in an observed uplift of $[+0.13\% \pm 0.39\%]$ on conversion rates.
- Achieved a 1.6% improvement in shipping page access rates, significantly impacting the success of the test.
- Analysed country-specific results, with all countries showing positive results and some like Germany having a significantly positive impact (+1.36% conversion with 97% significance).

May 2022 - October 2023

Front-end Development at [Decathlon.es](#)

Barcelona, Spain (Remote)

- Joined a team of 25 developers at Decathlon Spain, specialising in improving the performance and accessibility of the Spanish e-commerce website.
- Contributed to a 10% increase in website performance metrics through optimisation efforts.
- Developed performance optimisation strategies and enhanced accessibility features to improve the overall user experience.

June 2021 - May 2022

Front-end Developer at [Subforce.io](#)

Barcelona, Spain (Remote)

- Built projects from scratch using React, NextJs, ExpressJs, and MongoDB, focusing on front-end development.
- Collaborated in a small team consisting of two developers and a project manager, emphasising teamwork and communication.
- Implemented internationalisation in three languages for each project developed, ensuring a multilingual user experience.

EDUCATION

Full-Stack Web Developer at [le Wagon](#)

9-week full-time coding Bootcamp learning HTML, CSS, Bootstrap, JavaScript ES6, SQL, git, GitHub, Heroku, and Ruby on Rails. Designed, implemented, and shipped to production a clone of Airbnb and a Rails prototype.
