👤 PROFILE

I'm a dedicated front-end developer with back-end knowledge and two years of experience. I specialize in creating seamless user experiences using programming languages like Javascript and frameworks such as React.js, Next.js, and Svelte.js. With a passion for delivering high-quality web solutions, I stay up-to-date with industry trends and hold a certification in full-stack web development from Le Wagon.

📁 EMPLOYMENT HISTORY

Developer consultant at Extia, Barcelona

May 2022 — Present

- Key contributor to an e-commerce website with a staggering monthly traffic of over 18 million visitors.
- Implemented performance optimization strategies, enhancing the platform's scalability and contributing to its success.
- Collaborated closely with cross-functional teams, driving continuous improvements to meet the demands.

Front-end Developer at Subforce, Barcelona

June 2021 — May 2022

- Led the creation of a dynamic website for a startup, taking charge of all technical aspects from frontend to backend functionality.
- Independently managed the entire software development process, including gathering requirements, coding, testing, and deploying.
- Implemented new features and optimizations that improved the website's performance and made users happier, resulting in more conversions and increased user retention.

Receptionist at Soho House & Co , Barcelona

April 2019 — April 2020

- Developed customer service and organizational skills in a fast-paced environment
- Managed multiple tasks and priorities while maintaining a positive and friendly attitude towards guests and colleagues
- Anticipated potential issues and found solutions to ensure positive experiences
- Demonstrated strong skills in client assistance and service

🎓 EDUCATION

Full-Stack Web Developer, Le Wagon, Barcelona

August 2020 — November 2020

9-week full-time coding Bootcamp learning HTML, CSS, Bootstrap, JavaScript ES6, SQL, git, GitHub, Heroku, and Ruby on Rails. Designed, implemented, and shipped to production a clone of Airbnb and a Rails prototype.

⚙️ COURSES

JavaScript: The Advanced Concepts, Udemy

May 2021 — May 2021

JavaScript Algorithms and Data Structures, FreeCodeCamp

April 2021 — April 2021
