Experience

2023 - Present
Décathlon - France
Front end developer

- Promoted to an international role within Decathlon, focusing on developing a new global checkout system to serve customers across 15 countries.
- Collaborate with designers, project managers, and other engineers to transform creative concepts into production realities for clients and stakeholders.
- Conducted comprehensive code reviews and provided constructive feedback, leading to higher code quality and adherence to best practices.
- Collaborated with product owners to prioritize and manage the product backlog, ensuring that development efforts aligned with business goals and objectives.

2022 - 2023
Décathlon - Spain
Front end developer

- Contributor to an e-commerce website with a staggering monthly traffic of over 18 million visitors.
- Implemented performance optimization strategies, enhancing the platform's scalability and contributing to its success.
- Worked on enhancing website accessibility, making it more user-friendly for people with disabilities by aligning with WCAG guidelines, ensuring an inclusive online experience for all users.

2021 - 2022
Subforce - Spain
Front end developer

- Creation of a dynamic website for a startup, taking charge of all technical aspects from front-end to back-end functionality.
- Managed the entire software development process, including gathering requirements, coding, testing, and deploying.
- Implemented new features and optimizations that improved the website's performance and made users happier, resulting in more conversions and increased user retention.

2019 - 2020
Soho House & Co - Spain
Receptionist

- Developed customer service and organizational skills in a fast-paced environment.
- Managed multiple tasks and priorities while maintaining a positive and friendly attitude towards guests and colleagues.
- Anticipated potential issues and proactively found solutions to ensure consistently positive experiences.
- Developing strong skills in client assistance and service.
