Kévin Sauvage

Frontend Developer · Accessibility & Performance

kevinsauvage@outlook.com · +34 633 674 641 · Barcelona, Spain · kevin-sauvage.com · linkedin.com/in/kevin-sauvage

SUMMARY

Frontend developer in Barcelona with about five years of experience, mostly with React, Next.js, Svelte and TypeScript. At Keolis I started as the accessibility specialist and only developer on ilévia, a French public transit platform, and I now work on frontend more broadly. Before that I spent almost four years at Decathlon. I moved into development in 2020, after seven years in customer-facing jobs. I enjoy difficult problems with simple solutions, and keeping a codebase clean.

EXPERIENCE

Frontend Developer

Feb 2026 – Present

Keolis Group · Barcelona · Remote

- Took RGAA compliance on ilévia from 30% to 84% by reworking core UI components.
- Fixed semantic HTML, ARIA, keyboard navigation and screen reader issues.
- Added Jest-axe and Cypress-axe to CI so accessibility problems get caught before release.
- Made ESLint (jsx-a11y and custom rules) a required check on pull requests.
- Worked with product and design so accessibility is considered from the wireframe stage.

Frontend Developer

Oct 2023 – Dec 2025

Decathlon Core · Barcelona · Remote

- Built a Svelte component library used by storefronts in 15+ countries.
- Moved the checkout out of a monorepo into a versioned npm package, with feature flags and per-country configuration.
- Ran A/B tests on conversion and adoption across international markets.
- Built accessible components, working with designers in Figma and Storybook.
- Owned the test suite (Jest, Cypress) and increased coverage.

Frontend Developer

May 2022 – Oct 2023

Decathlon Spain · Barcelona · Remote

- Worked on Core Web Vitals on the Spanish storefront, which cut average load time by 1.5s.
- Built a modular Svelte component system to reduce duplication.
- Rolled out WCAG 2.1 across the storefront.
- Wrote the team's documentation standards for components and technical decisions.

Frontend Developer

Jun 2021 – May 2022

Subforce · Barcelona · Remote

- Built full-stack features with React, Next.js, Node.js and Express.js, including third-party API integrations.
- Worked on state management with Redux and Context API.
- Moved a legacy JavaScript codebase to ES6+.

PROJECTS

ComplyLoop Checks React and Next.js codebases against RGAA 4 and WCAG 2.2, and opens fixes as draft pull requests.

Oruva A jewelry store on Next.js and Shopify, in English, Spanish and French. Design and development.
